IMMUNIZE OREGON

A STATEWIDE COALITION PROMOTING AN ENHANCED QUALITY OF LIFE FOR ALL OREGONIANS

VISION

A future where no Oregonian has their enjoyment of life reduced by a disease that could have been prevented by immunization.

MISSION

Immunize Oregon works to prevent disease through community partnerships, clinical expertise, and immunization policy based on science.

A collaboration of community organizations and individuals dedicated to sensible disease prevention and building healthy communities throughout Oregon.

COMMUNITY OUTREACH & EDUCATION

Provide education and resources based on science for parents and patients

CLINICAL TRAINING & BEST PRACTICES

Enhance provider immunization expertise and clinical practices•

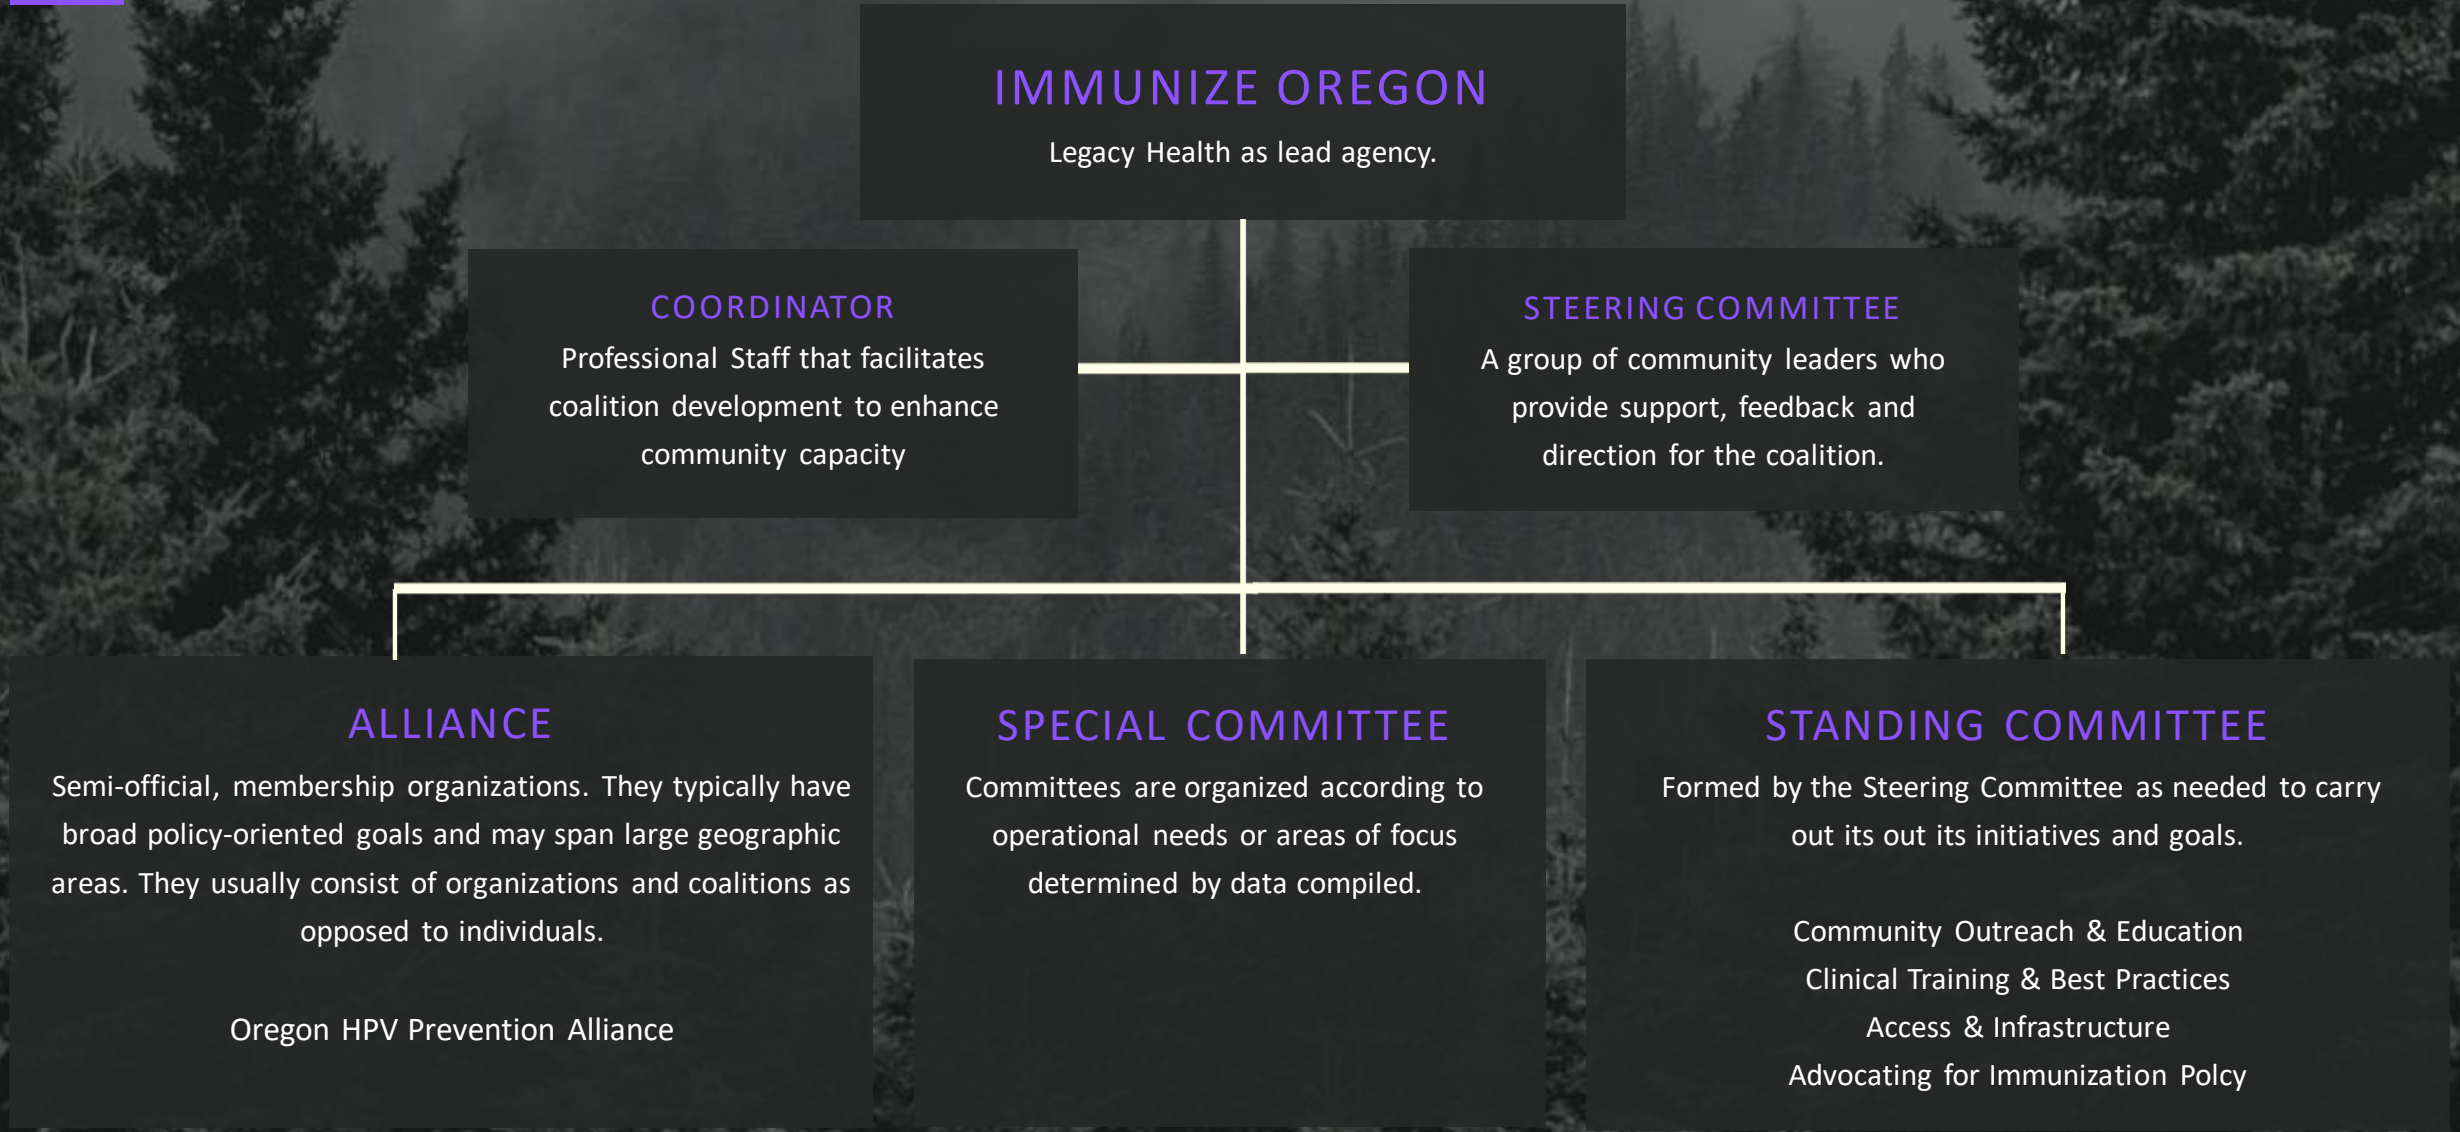

ACCESS & INFRASTRUCTURE

Build community resilience through equitable access to immunizations

ADVOCATING FOR POLICY

Uphold a rational discussion to advance vaccine policies using disease prevention approaches

ORGANIZE FOR CHANGE

DRIVING FORCES

Addressing the vaccine hesitancy crisis is complex, requiring a great deal of resources, experiences, and skills. By bringing together partners with a variety of perspectives, Immunize Oregon can develop and implement powerful, innovative and inclusive strategies that can lead to significant change.

LOCAL KEY PLAYERS

bring the perspective of the sector they represent to the coalition and carry out strategies for the communities they serve

COMMUNITY LEADERS

Promote and gather support for the coalition's information, strategies, and activities from the sector they represent. Members act within their own sphere of influence, thus enlarging the coalition's ability to create needed change and implement multiple strategies.

NEW MEMBERS

Invited to join to expand the coalition's sphere of influence and gain needed capacity to address additional root causes.

COORDINATED EFFORT

Recognize, foster, and strengthen leadership that represents the differing voices within the community
