GOING VIRTUAL

Immunize Oregon and the Oregon HPV Prevention Alliance are excited to convene providers, stakeholders, and content experts from across the region to host virtual events and meetings. Curriculum and agenda topics are designed to bring together public health professionals, healthcare personnel, epidemiologists, researchers, policy advocates, clinic managers, students, community members, and anyone seeking comprehensive knowledge of immunizations. The coalition will pursue continuing education credits each session but cannot guarantee each virtual event and meeting will provide credit opportunities.

The virtual community platform aims to host expert speaker sessions throughout the year. To provide opportunities for member engagement during discussions, speaker presentations will be held on various dates and times to accommodate the busy schedules of health professionals. Virtually access allows more individuals to participate and provides a space to strengthen partnerships with influential leaders while gaining professional education and training from expert speakers. Immunize Oregon and the Oregon HPV Prevention Alliance aim to highlight the importance of vaccination by showcasing the latest trends supporting best practices and engaging health professionals in initiatives promoting community immunity.

Immunize Oregon and the Oregon HPV Prevention Alliance are excited to invite new and existing coalition participants to join our efforts and guide the conversation

Registered attendees will gain access to the virtual sessions and events covering immunization topics. This unique virtual community allows coalition members to connect with other participants, view Livestream speaker sessions, download presentation content, visit exhibitor booths, and participate in community discussions using a computer, tablet, or phone. Formal presentations and informal discussions encourage open dialogue between speakers and participants, giving members an opportunity to strategize and devise innovative ways to resolve issues.

Registration includes:

- Streaming expert presentations on your computer, tablet, and phone
- Speaker slides*, handouts, and supplemental materials*
- Continuing education hours (pending approval)
- Access to the exhibitor showcase
- Community discussion boards and resource library
- Opportunities to win great prizes!

**Speaker slides and materials will be shared as copyright regulations allow.*

IMMUNIZE OREGON

Immunize Oregon is a network of community members, health professionals, and partner agencies with a common goal of preventing disease and improving the quality of life for all Oregonians. Partnership is key to prevention and our coalition represents a variety of immunization stakeholders statewide, including parents, grandparents, religious leaders, nurses, physicians, pharmacists, public health professionals, direct service providers, researchers, and clinical educators. We work to address local priorities by including partners across the state to improve health for everyone. Our role is to support and advise health professionals, policymakers, and the community on the current science and clinical best practices regarding immunizations.

CODE OF CONDUCT

The coalition virtual community will bring together professionals of various disciplines from around the region. The content will focus on evidence-based immunization topics and sharing of best practices. We will encourage networking, and discussion, and will provide specific agenda time for questions. Interruptions, impoliteness, or disruptive behavior will result in the forfeit of any registration fees and dismissal from the community.

CONFLICT OF INTEREST

Immunize Oregon, presenters, and funding agencies treat potential or perceived conflicts of interest very seriously. All potential conflicts will be disclosed by presenters and strict limitations exist on any non-educational activities or materials comingling with the clinical education being provided.

Immunize Oregon is a non-profit network and its participants are uncompensated volunteers or are involved in the coalition as part of their professional roles with various agencies. The coalition is dedicated to current clinical evidence and does not promote or recommend any brand or product. Specific brand or product names will be discussed when it is of educational value. Donations are not accepted by Immunize Oregon and no product is sold as part of coalition events. Expenses for events are covered through a combination of grant funding, in-kind contributions from our Immunize Oregon partners, registration fees, and solicited industry or charitable financial support.

Our financial supporters have no planning or curriculum involvement and no support was accepted with any stipulation or condition. Any surplus funds, after all expenses, honoraria, and invoices have been paid, will be used to support Immunize Oregon mini-grants or donated to the Randall Children's Hospital at Legacy Emanuel Medical Center.
